B.Tech/B.E.	PRIST UNIVERSITY	prist university chennai campus	2020	72%

CERTIFICATES

- Java

MAJOR PROJECTS

- Data Store for Customer Reviews

Built the polyglot persistence layer for a REST API that will support the customer reviews section of a product page in an ecommerce application. Begined with setting up MySQL & MongoDB, updated the persistence service to read/write from both MySQL and MongoDB, and writed code to calculate aggregate ratings for a product. Also builted corresponding test cases for JPA & MongoDB repositories, and wire the persistence service to the already provided REST Controller.

- Back-end System For a Car Website

Builted a back-end system for a car website, composed of vehicle list services, order services, pricing services, and sales services. Using Java APIs and frameworks to integrate these different services using different communication styles, and leverage unit tests, error handling, logging, and others.

- Chat Room Application with Spring Boot

Builted a web-based chat room application using Spring Boot and websocket components. Implement the message model and controller and use Thymeleaf to create web pages to build the user login flow and chat room interface.
